Public parking at the F1 Pit Building is not available, however, we offer designated accessible parking lots for drivers and passengers with mobility impairment. Vehicles must display a valid Car Park Label to enter and park at the F1 Pit Building.

Why we cannot offer public parking onsite

We understand your frustrations about the lack of public parking at the F1 Pit Building. Unfortunately, we are unable to offer public parking onsite as the Singapore Police Force has strongly advised us to discontinue public parking onsite. This came after a kilometre-long congestion on the public roads of Raffles and Republic Boulevard at the November 2019 event. Despite our best efforts over the years, the traffic and parking system at the F1 Pit Building is simply not designed to accommodate the unique traffic situation of Boutiques due to the volume of visiting shoppers, and the rate at which they come and leave.

Our team is looking into different ways of making your visit to Boutiques as easy as possible. Any updates on this situation will be announced on social media and updated here on our website. Please note you will continue to see vendor parking onsite, which can be accommodated because vendors arrive early in the morning and leave late at night, thereby not impeding regular traffic flow throughout the day.
